## **SIGN IN PROCEDURE AT MEETINGS**

Fellow Rockhounds,

Please be advised at the February meeting there will be a new procedure when signing in. Please go directly to the Membership table which has been relocated to the southeast corner of the room to sign in and to pay dues. We are doing this to speed up the process so that the meeting can start on time. The Moose Lodge only gives us a limited time to set up, have the meeting and cleanup and at no cost to the club. Doors open at 9:00 AM please be signed in by 9:30.

See diagram below. Charlotte our greeter will have a copy of the diagram and our independent director will be inside if you need help. Thank you in advance.

Mike Rowe

### **A MESSAGE ABOUT A GREAT OFFER FROM ONE OF OUR GENEROUS MEMBERS!**

As many of you may already know, one of our fantastic members, Kathy Myers, has been offering free classes to the membership in wire wrapping and silver smithing. The classes are at her home in Prescott Valley. Kathy charges nothing for her instruction, only asks that you reimburse her for any of her supplies you may use. Kathy took a little vacation over the holiday months, but she'll be back in February and on February 20<sup>th</sup> her classes will resume. If you are interested, catch up with her at the February meeting or shoot her an email at [kmesser109@q.com](mailto:kmesser109@q.com).

## **FOR SALE (OR WANTED!)**

**Use the column to let other club members know about the great stuff you have regrettably decided to sell. In other words, list whatever equipment or other paraphernalia, rock related only, you have for sale. Send your information to [fluffierox@yahoo.com](mailto:fluffierox@yahoo.com) by NLT the 25<sup>th</sup> of the month for insertion into the newsletter**

Brian Jensen has 30lbs of Mexican Opal for sale in 1 lb bags. He is asking \$20 per pound and will possibly cut the price for a quantity discount. If you're interested give a call at 928-771-9536.

---

Howdy— I have some faceted amethyst and opals cabs for sale. The opals are \$20 apiece and the amethyst is \$30 a piece.

FEBRUARY 2020

---

One of our members has some uranium ore from the field trip to Anderson Mine and wulfenite, vanadinite and fluorescent rocks from the field trip to Red Cloud Mine. He would like to trade for minerals that are identified, including the location where they were collected from.

On a separate issue, He was hoping the more experienced members of our club could share what they know about buying a good UV flashlight.

### **Contributions for the Monthly Raffle**

*We are seeking unique or unusual rocks, specimens and lapidary jewelry for the monthly raffle. Actually, anything pertaining to rockhounding, such as books, tools, etc. would be appreciated! The more variety we have, the better the participation and buyer gratification. Please label the specimens donated, if possible, with the name of the material and where it was discovered. Thanks!*

### **WAYNE AUGUSTO – VICE PRESIDENT PROGRAMS**

#### **Up-Coming PGM C PROGRAMS**

**Saturday, February 1st:** Gary Carter will be giving his presentation on the storied Vulture Mine of Wickenburg, AZ. Gary has promised to present us with some great indepth information on this fabled mine and provide us with a few "myth busting" facts as well. Gary comes to us from Sun City and has a Masters Degree from the Idaho School of Mines. Gary has written several articles for the Mineralogical Record Magazine and in 2012, completed a 100+ page research report on the "Revised History of the Vulture Mine". Gary has been an avid mineral collector for over 40 years and also specializes in minerals of India, so I'm hoping to have him do a return presentation in the future.

FEBRUARY 2020

**Saturday, March 7th:** Steve Maslansky is a geologist and mineralogist who gave a presentation entitled "If Rocks Could Talk" at the recent Central Arizona Geologists Club meeting concerning the provenance of mineral and gem specimens - his sample of Velvet Malachite in particular. I have asked Steve to give this same presentation to the PGMG group as it was quite interesting and has the added benefit of helping members understand the procedure of tracking the origin and authenticity of specimens when being considered for purchase. Steve has spoken to our group before and is sure to be a welcome guest at our March meeting.

That's all I have for now but I am working on filling our meeting calendar for the months ahead and will keep you all posted as I do. Looking forward to seeing you at the upcoming meeting this Saturday.

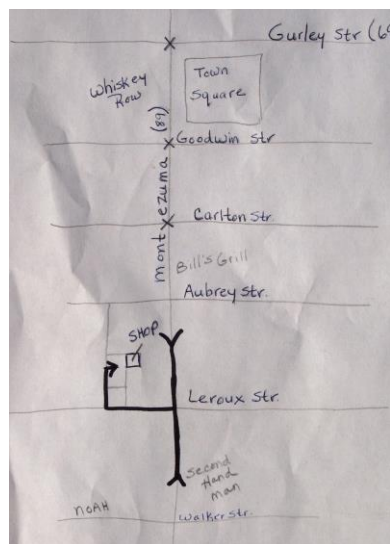

Wayne Augusto  
VP of Programs

## WORKSHOP HOURS and ADDRESS

Tues., Wed., Fri., and Sat. from 1:00pm to 4:00pm. Tuesday evening by appointment. Contact Dana Ramsey for availability.

**Address:** 430 S. Montezuma (actually on S. Granite), Suite B, Prescott. There is a map on the website and maps will be available at the meeting. Call Steve Dudar 201-873-9645 OR [Stevedudar@hotmail.com](mailto:Stevedudar@hotmail.com) for more information.

Below is a map to help you find the workshop.

## FIELD TRIP REPORT

***YOU MUST BE A PAID UP MEMBER TO GO ON ANY FIELD TRIP, AND HAVE A PGMC STICKER ON YOUR VEHICLE REAR WINDOW!***

We had an awesome time On the January 18th trip even though help from Dana Ramsey was very necessary! More than 20 people showed up, and then after finding some common opal, gorgeous Pastelite, and Agate- we were led by Dan and Ruby Shepherd to some abundant obsidian and Apache Tears.

Our next trip, February 15, we will meet at 8:30 AM at the Safeway parking lot in Chino Valley. We will be going for some super nice Calcite crystals that come as solid white, peach, and clear. This material polishes up extremely well. If it does not rain, the roads are easily passable for two wheel drive with good clearance. We will be crossing some hopefully dry little washes. I will have some samples of this material on loan from our intrepid discoverers at the next meeting, BE THERE!

FEBRUARY 2020

On the third Saturday of March, we will march on down to the Red Cloud mine again as more than 20 people at the last meeting indicated that they wanted to go. Our finds last time for wulfenite, Vanadanite, and fluorescent material was nothing short of spectacular!

Happy Rockhounding!

Jim Turner

Please let me know of good sites for the club to go to- Jim Turner

## **PRESIDENTIAL MESSAGE**

Well who else made it down to Quartzsite and found some amazing treasures? Don't forget Tucson Show is happening this month if you have never made it there, it is worth the trip! These are the two most exciting months with the exception of our own August show!

We are still in great need of another Membership Volunteer as well as a Junior Program Volunteer. If you are looking for ways to get more involved, these both would be excellent opportunities for you!

On a side note, , we are in need of donations for the Kid's Corner Spinning Wheel for the August show. It would be excellent if we could focus on things that can actually be found right here in Arizona. Last weekend we went on the field trip and gathered a bunch of Apache Tears that will be great as prizes on the wheel. Things like Chalcedony specimens, Glauberite, polished Agate or Petrified Wood, small specimens and things of the like are greatly appreciated! Contact Colleen Denton for bring to the General Meeting. Thank you!

We will see you all at the meeting,  
Colleen Denton

**Note: I would like to remind everyone that when the Presentation portion of our meeting is over, it is still necessary to Adjourn the meeting. I would like to ask that everyone remain seated until the meeting has been Adjourned. It would make it easier for the Secretary who is trying to hear who makes the motion to adjourn and who seconds for the minutes. Thank you for your consideration!**
