NICK SACCKETTI–VICE PRESIDENT PROGRAMS

Up-Coming PGMC PROGRAMS

Welcome to 2019! For the first program of the year on January 5, we welcome back Brian Beck, who will be telling us of the history, geology, and minerals of the Binghamton-Copper Queen Mines in Mayer. This is another chapter in the rich history of mining in the Prescott area and the Bradshaws.

For February, I will be presenting on the development of the unique Fluorescent Mineral Display that we have at our annual show, and where the future is for fluorescent displays of this type in events such as the upcoming Earth Day in April. For those of you who did not see the display, this will be a chance to catch up and get an introduction."

FIELD TRIP REPORT

Hello from your new Field trip guy! I want to thank all who have helped me and volunteered their help going forward. You are expanding my knowledge base immensely, and I am grateful to you all.

Our first trip in January will be to the Quartzite show the weekend of January 11-13, 2019. Quartzite is on I-10 just before the California border. This is a great start for old and new members alike; and the children will have a great time as well! This weekend, the Quartzite and Wiley Wells shows overlap. The meet up place and time is **Saturday, January 12th at 11AM at the Wiley Wells road turn off at the rest stop.**

The campgrounds will be full, but the BLM allows distributed camping most anywhere. Please be self-contained if camping; bring plenty of water, gloves, picks, shovels, and your hiking boots & buckets. This is a trip you can do in a station wagon. We are going to see the show, and go to the Hauser geode beds for collecting, as well as Potato Patch.

February 16, 2019: back to the normal "Third Weekend". **4X4 only trip:** Bloody Basin (off the I-17) to the Verde river, & Sheep Bridge. For Blue Sagenite. More next month on this trip.
